# Sanaa Atif Mohamed

**FRONTEND DEVELOPER**

**Cairo, Egypt | +20 109 658 5736 |** sanaaatif141@gmail.com **| GitHub:** https://github.com/SanaaAtif
**LinkedIn:** https://linkedin.com/in/sanaa-atif569

## Summary

Front-End Developer focused on building responsive and user-friendly web applications with React.js. Passionate about writing clean, maintainable code and creating seamless user experiences.

## Education

**Bachelor of Science in Computer Science | 2021 – 2025**
Faculty of Science, Ain Shams University — Cairo, Egypt
GPA: 3.18 / 5.00

## Training

**Front-End Engineering Training — eVision**
Cairo, Egypt | 2026 | Duration: 1 Month

- Completed an intensive Front-End Engineering training program with hands-on experience in modern front-end development practices.
- Strengthened practical skills in building responsive user interfaces, writing clean code, and following collaborative development workflows.

## Technical Skills

**Programming Languages:** JavaScript (ES6+), TypeScript, HTML5, CSS3, C++, Python.
**Frontend Engineering:** React.js, Component-Based Architecture, REST API Integration, Responsive Web Design.
**UI & Styling:** Tailwind CSS, Bootstrap, Responsive Web Design (RWD).
**Tools & Platforms:** Git, GitHub, Postman, Visual Studio Code.

## Projects

**E-commerce Website** *(In Progress)*
**Technologies:** HTML5, CSS3, Tailwind CSS, JavaScript (ES6), React.js
**GitHub Repository:** https://github.com/SanaaAtif/Ecommerce-project

- Developing a responsive E-commerce website with product listings, cart, and user authentication.
- Building reusable React components with efficient state management.
- Integrating APIs and focusing on a smooth, user-friendly experience.

**Bank Management System** *(Training Project — eVision)*
**Technologies:** React.js
**GitHub Repository:** https://github.com/SanaaAtif/Bank-Management-app

- Developed a responsive Bank Management System during Software Engineering training at eVision.
- Built the frontend with React.js and integrated RESTful APIs for managing customers, accounts, and transactions.

**CRUD System (Product Management Application)**
**Technologies:** HTML5, CSS3, Bootstrap, JavaScript (ES6), Local Storage.
**GitHub Repository:** https://github.com/SanaaAtif/crud-system

- Developed a responsive CRUD web application for product management using JavaScript.
- Implemented Create, Read, Update, and Delete (CRUD) operations with Local Storage for persistent data.
- Wrote clean, maintainable, and reusable JavaScript code following frontend best practices.

## Certifications & Competitions

**Egyptian Collegiate Programming Contest (ECPC) — 2024**

- Participated in competitive programming contests focused on algorithms, data structures, and problem-solving under time constraints.
